The Ring

The Iron Ring The Iron Ring has been registered and may be worn on the little finger of the working hand by any engineer who has been obligated at an authorized ceremony of the Ritual of the Calling of the Engineer. The ring symbolizes the pride which engineers have in their profession, while simultaneously reminding them of their humility. The ring serves as a reminder to the engineer and others of the engineer's obligation to live by a high standard of professional conduct. (<http://www.ironring.ca>)I got this ring in 2005... last year.. But a few months ago, in January, I unfortunately lost it...Of course I felt very naked... and had to get another one A lot of coincidences... that only have values for me...

The Sorouche mobil

The Sorouche's Mobil Today the Sorouche Mobil (Volkswagen Golf) reached 45'000 km. The little kid has not caused me trouble so far and it's been a nice ride. Hopefully it will keep going on like that.
